

## People

1. Choose one person from the list.
  - \* use a variety of resources to find facts about the person
  - \* find facts about:
    - personal life
    - impact on the industry of the region
    - importance to the economy
    - dates, times, places in the person's life
  - \* write a three-part report
    - part 1: the personal life of the person
    - part 2: the person's involvement in industry and economy
    - part 3: your opinion of the importance and impact of the person on the industry and economy of the region
  
2. Write a speech about the person.
  - factual information about the person's accomplishments
  - your opinion of the importance and impact of the person
  - \* give the speech
    - answer questions from the audience
  
3. Prepare an interview for the person.
  - \* prepare questions – and answers – about the person's accomplishments
  - \* prepare an interview between the person and someone else
    - a real person from history
    - a real person from present-day
    - a fictional person
  - \* with another student, take the parts of the two characters
    - interview the person from the list
    - ask and answer questions from the points-of-view of the two characters
  - \* as a challenge, have the character answer questions about issues related to present-day situations
    - answers should be given and person should remain in character
  
4. Write a newspaper story about the person.
  - \* prepare questions and answers about the person
  - \* write a newspaper article about the person using facts about the person's life and accomplishments
  - \* write a newspaper editorial about the person's accomplishments and his/her impact on industry and the economy

5. Choose two of the people from the list.
  - \* write questions, answers, and statements from each character's point-of-view
  - \* create a conversation between the two characters
  - \* with another student, present the conversation
  - \* as a challenge, have another student enter the conversation as a present-day, well-known character
  
6. Find a relative or neighbor who worked in the steel industry. Interview the person about his/her work, and the impact of the steel industry on his/her life.
  - \* identify where the person worked and for how long
  - \* discuss the types of jobs done by the person
  - \* discuss the training needed for the job
  - \* ask for the person's impressions of the importance of his/her job, and the importance of the steel industry in the development of the region
  - \* talk about the problems encountered during the years working in the steel industry
  - \* identify the person's membership in, or lack of membership in, the steel workers union
  - \* explain the impact of the loss of the steel industry on his/her life, and his/her feelings as to the reasons for the decline of the steel industry
